\* Alternative component brands and/or configurations available as optional equipment.

## DURABILITY AND SMOOTH RIDE

### LONG LIFE

Durable steel rails and crossmembers support maximum load weight. Our fully hot-dipped galvanized frame protects against corrosion and provides a base for a durable, long-lasting finish.

### LOW MAINTENANCE

Our rigid, yet simple frame design ensures a long reliable life with low maintenance cost.

### SMOOTH RIDE

Spring suspension and drawbar eye minimize wear on components to ensure a smooth ride.
